## CIRCULAR

DAVPS/AV-IV/CIR/24-25/28

Date: 23.8.2024

Dear Students, Parents, and Staff,

This is to inform you that kite flying is a popular sport, especially during the weeks leading up to and following Independence Day. While this activity brings joy to many, it is crucial to recognize the hazards posed by the use of kite-flying threads made from plastic, nylon, or similar synthetic materials. These threads, commonly known as "Chinese thread/Manja" or any thread coated with glass or metallic components, have been known to cause severe injuries to both humans and birds, sometimes with fatal consequences.

In light of these dangers, it is imperative to enforce the following measures:

**Complete Ban:** There shall be a complete ban on the sale, production, storage, supply, import, and use of kite-flying threads made from nylon, plastic, or any other synthetic materials, including those commonly referred to as "Chinese Manja" or any other sharp kite-flying thread.

**Legal Monitoring:** The ban on sharp Manja is being closely monitored by various Hon'ble Courts, and it is important to adhere to these regulations strictly.

**Awareness:** All parents and students of our school community are requested to generate awareness about this ban. We urge you to inform others in your neighbourhood and social circles about the dangers of using sharp/Chinese Manja and to discourage its use.

Please take this circular seriously and ensure compliance with the above guidelines to prevent any unfortunate incidents. Let us all contribute to a safer environment for everyone.

**Warm regards,**

**Mrs. Kusum Bhardwaj**  
**Principal**
